EMAIL 1: Sent to Kawana Forest Residents with results of Survey 6 October 2020

Hi All

Thank you all for taking the time to complete the Kawana Forest Community Transport Needs Survey.

Attached is a high level summary of the results from the survey, which showed a strong community need for a bus servicing the Kawana Forest estate. Over 20% of households completed this survey and new responses continue to trickle in post this data extract (we will monitor these to ensure they are new unique respondents not duplicates).

Last night the KaFRA committee presented the full detailed results (20 pages) to our current local MP Jarrod Bleijie. It also covered the following:
-    About Kawana Forest and how it has changed significantly over the past 12 years (census data)
-    Current Bus Services Available and other similar estates to us and their bus services
-    Our Community transport needs based on survey results (routes and access they will provide, gaps in some of our school bus services)
-    Issues if not addressed
-    Our proposal
-    Survey results (excluding your personal contact details)
-    References to previous surveys conducted by TMR and QLD TMR Public Transport Infrastructure Manual (PTIM)

Jarrod is now going to set up a meeting between KaFRA and TMR (Transport and Main Roads) so we can talk about our needs and present this compelling supporting data.

I also reached out to Bill Redpath (Labour Candidate) 21 September and raised our bus requirements and proposed solution, he advised he would talk to the Minister, Mark Bailey, and come back to me.

I will keep you informed as new information comes to light.

Please email me if you have any further questions. I will endeavour to upload this information to our FaceBook page and our website over the coming days for those that did not leave an email contact.

Kind Regards
Alana McEwen
Secretary | Kawana Forest Residents Association
