- The community are asked to get involved and like or love your favourite photos
- KaFRA committee will select winners and announce via Facebook

The children of Kawana Forest are eagerly awaiting Halloween. Our community has shared ideas on ways to make Halloween enjoyable for everyone they include:

-Properties of residents participating in Halloween to provide cues that you are part of the event e.g. Halloween décor outside the home clearly indicating you are participating. Leaving your front light on when it's darker.

-As important, is sharing the message to the children not to access properties that have remained without cues, therefore indicating they are likely not participating in Halloween.

-It is asked that parents be responsible for their children when visiting the photo booth and accompanying their younger children whilst 'trick or treating'.

-If you have an amazing display that must be seen or want to let kids know you're participating, please post your street name in the KaFRA - Halloween thread in Facebook.

-Please provide wrapped lollies only and be COVID safe.

Hey kids - Remember to dispose of wrappers thoughtfully. Some residents may like to provide bins.

Looking forward to some great fun!!
